

DOUBLE TOP & BOTTOM STRATEGY GUIDE

Chart and Strategy Setup

1. Open a 3-minute chart with the Pure Pattern Trader tool loaded onto the chart
 2. Swing Strength: Medium
 3. Wait for the tool to identify a Double Top/Bottom forming on the chart
 4. Once a pattern forms, wait for price to breach the validation by a couple ticks and execute a trade
 1. Optional: Park an order a couple ticks beyond validation level / Wait for a candle close
 5. Stop will go a couple ticks beyond the Invalidation level
 6. Target will be placed at or just beyond the projection level
- Strategy Optimizer: Trade these patterns at Support/Resistance levels only
