

FLAG PATTERN STRATEGY GUIDE

Chart and Strategy Setup

1. Open a 3-minute chart with the Pure Pattern Trader tool loaded onto the chart
2. Swing Strength: Big
3. Wait for the tool to identify a Flag forming on the chart
4. Once a pattern forms, wait for price to breach the validation level by a couple ticks and execute a trade
 1. Optional: Park an order a couple ticks beyond validation level / Wait for a candle close
5. Stop will go a couple ticks beyond the opposite end of the flag
6. Target will be placed at or just beyond the projection level
