

PURE PATTERN TRADER PULLBACK STRATEGY

Chart and Strategy Setup

1. Open a 30-minute chart and load the Pure Pattern Trader Tool onto the chart
2. Set the swing strength in the Pure Pattern Trader Tool to “Medium” and all Price Patterns set to current.
3. Identify the overall trend of the market either using Pure Pattern Tool Analysis or pure observation from higher timeframes if needed
 1. Ideally, you’d like the trend to be moving at a 30 - 45° angle.
4. Long Setup:
 1. Identify a Pure Pattern that’s currently forming or recently formed with a topping pattern within the Pure Pattern. Ideally, you want to see a lower high with momentum loss near the top
 2. Entry will be above the invalidation level within the higher low
5. Short Setup:
 1. Identify a Pure Pattern that’s currently forming or recently formed with a bottoming pattern within the Pure Pattern. Ideally, you want to see a higher low with momentum loss in the bottom
 2. Entry will be below the invalidation level within the lower high
6. Target is, ideally, a 2:1 reward to risk OR you can use the tool’s Pure Pattern Trader’s projection zones
