

# PURE PATTERN TRADER PULLBACK STRATEGY

## Chart and Strategy Setup

1. Open a 2-minute chart and load the Pure Pattern Trader Tool onto the chart
2. Set the swing strength in the Pure Pattern Trader Tool to “Big” and all Price Patterns set to current
3. Identify the volatility of the market. You want the market to have some volatility where you see good movement and swings. Ideally, you’d like to see a solid trend
  1. Identify a Pure Pattern that’s currently forming or recently formed
4. Entry will be on the break and/or close of a candle beyond the validation level
5. Target is, ideally, a 2:1 reward to risk OR you can use the tool’s Pure Pattern Trader’s projection zones
