

30-YEAR BOND NIGHT TRADE STRATEGY GUIDE

Market Vitals

Market Name: **U.S. 30-Year Treasury Bond**

Ticker Symbol: **ZB**

Roll Cycle: **Quarterly**

Tick Value: **\$31.25**

Cash Session: **8:20AM EST – 3:00PM EST**

Important Recurring Events: FOMC, U.S. Employment Statistics, U.S. Treasury Auctions, CPI

Chart and Strategy Setup

1. Open a 5-Minute ZB Chart
2. (OPTIONAL) Load 2 Opening Tick Tools (if available) and set them to 1500 hours and 1800 hours
3. Wait for the market to open at 6:00PM ET and measure the distance in ticks from the open of the night session and the cash close
4. The difference will need to be greater than 6 ticks and less than 32 ticks for a trade to occur
5. Execute a trade at the open of the night session targeting the cash close
6. If you park an order and the trade does not trigger by 12:00AM ET then cancel the trade
7. Stop is set to be equal the distance from the cash close to the night session open
8. Reward to Risk is 1:1
