

SYMMETRIC TRIANGLE STRATEGY GUIDE

Chart and Strategy Setup

1. Open a 5-minute chart with the Pure Pattern Trader tool loaded onto the chart
2. Swing Strength: Medium
3. Wait for the tool to identify a Symmetric Triangle forming on the chart
4. Once a pattern forms, wait for price to breach the edge of the triangle by a couple ticks and execute a trade
5. Stop will go a couple ticks beyond the opposite end of the Symmetric Triangle
6. Target will be placed at or just beyond the projection level
